We normally pay Industrial Injuries Disablement Benefit directly into an account. This is the safest way to pay you and lets you choose how and when you get your money. You can use a bank, building society or other account provider. Most accounts allow you to make savings on some of your bills by paying them by Direct Debit. You may be able to use a cash machine, which will usually mean you can get your money at any time of the day or night. Most of these machines can be used for free, but some of them will charge you to take your money out. If so, you will be warned by a message on the screen. This will give you the opportunity to cancel your transaction without being charged. There are arrangements with some banks and building societies to let you collect cash from many of their accounts over the counter at post offices.

A – Payment direct into an account

How you will be paid

Your benefit will be paid into the account every 4 weeks, every 13 weeks or every week.

Finding out how much is paid into the account

We will tell you when the first payment will be made and how much it is for. Each payment, after the first one, should be for the same amount unless there is a change in your circumstances. We will tell you whenever we know there is going to be a change in the amount we pay into your account.

You can check your benefit payments on your account statements. Your statements will usually show your National Insurance (NI) number next to payments that are from us. If you think your payment is wrong, get in touch with the office that pays you.

Getting someone to collect your benefit

You may be able to get someone else to collect your benefit for you regularly if you wish. For help with this please contact your bank, building society or other account provider such as the Post Office® or a Credit Union.

If not enough money is paid into the account

If we do not pay enough money into the account, we will make another payment or add the money we owe you onto your next payment. We will contact you to tell you what we are going to do.

Sometimes too much money may be paid into your account and you may be overpaid

If this is because of the way the system works for payments directly into an account, we have the right to recover any money you are not entitled to. For example, you may give us information which means you are entitled to less money but we may not be able to change the amount already sent out. We will contact you first if we propose to recover any money.
