## What is Industrial Injuries Disablement Benefit?

Industrial Injuries Disablement Benefit is a payment for people who are ill or disabled as a result of an accident, disease or event that happened at work, or in connection with work.

If you want to claim benefit for an industrial accident, you will need to fill in form **BI100A** *Industrial Injuries Disablement Benefit for an accident at work*. You can get it from your regional disablement benefit office. You can find a list of offices on **page 11** of these notes.

## What is a prescribed industrial disease?

The law lists over 70 diseases which can be caused by working in some types of jobs or using particular tools. These diseases are called *prescribed diseases* (PDs).

You can get a list of the prescribed diseases and jobs you can claim for under the Industrial Injuries Disablement Benefit scheme from our website at **[www.dwp.gov.uk/advisers/db1/appendix/appendix1.asp](http://www.dwp.gov.uk/advisers/db1/appendix/appendix1.asp)**

Or you can get the **BI100PD list** from your regional disablement benefit office.

## Am I entitled to Industrial Injuries Disablement Benefit?

You may be entitled to this benefit if you are disabled because of a disease caused by your work.

You are not entitled to Industrial Injuries Disablement Benefit if you were self-employed when you got the disease.

You may not be entitled to Industrial Injuries Disablement Benefit if the disease is not shown on the list of prescribed diseases, or if your job is not listed against the disease.

There are special rules for some prescribed diseases.

If you are not sure if you can claim, contact your regional disablement benefit office

# Am I entitled to Industrial Injuries

## Disablement Benefit? continued

There are also time limits on 3 prescribed diseases.

### **A10 – occupational deafness**

You must have worked for at least 10 years in at least one of the jobs on the list which are known to cause deafness. The work must have been within five years of the date that you claim. You may also be able to get benefit if you worked very close to someone else who was doing a job on the list which is known to cause deafness.

### **D7 – occupational asthma**

At some time in the 10 years before your date of claim, you must have been in contact, at work, with a substance on the list that caused your asthma.

### **D12 – chronic bronchitis or emphysema or both**

You must have worked underground in a coal mine for a period or periods which add up to at least 20 years. You can have worked for more than one employer. The 20 years does not have to be one unbroken period. We can usually ignore short breaks in your work of less than three months.

From 21 July 2008 you may also be able to get benefit if you worked on the surface of a coal mine as a screen worker. But you must have worked there before 1983 for a period or periods which add up to 40 years.

**The amount you get depends on how seriously you are disabled.** We usually need you to go to a medical examination. We may need you to take a breathing test or a hearing test and we may need to have an x-ray. But we will not send you for an x-ray if:

- you have had an x-ray within a specific period of time, and
- the medical examiner can get a copy of it.

The doctor who examines you will tell us how seriously you are disabled and how long you are expected to be disabled.

You can only get Industrial Injuries Disablement Benefit if you became disabled because of work done for an employer on or after 5 July 1948.

## When to claim

If you become disabled because of a prescribed disease, claim Industrial Injuries Disablement Benefit straight away. But usually you will not be entitled to benefit for 90 days after the date that the disease started. If you delay you may lose some benefit.

### Signing the form for someone else

The claim form should only be signed by someone else if:

- the person who is making the claim is not mentally able to act on their own behalf, **and**
- someone is willing to act on their behalf in all social security matters, including telling us about any change in their circumstances and collecting money for them.

Someone accepted by the Department to act on a person's behalf is known as the *appointee*.

A person who is physically disabled but mentally able will not normally need someone to act for them.

If someone applies to act on a person's behalf we will:

- arrange a visit to:
  - the person who is making the claim, and
  - the person who is applying to act on their behalf, **and**
- decide if the person needs someone to act on their behalf, **and**
- explain the responsibilities that the appointee would be taking on.

We will not pay any benefit until this process is complete.

If someone has power of attorney or legal authority to act on behalf of the person making the claim, then the person with power of attorney or legal authority must:

- sign the claim form, **and**
- send us a copy of the legal authority with the claim form.

The copy of the legal authority must be certified and signed by a solicitor as a true copy.

# About your claim for a prescribed industrial disease

## Claiming Industrial Injuries Disablement Benefit

To claim Industrial Injuries Disablement Benefit you will need to answer all questions on the form **BI100PD** and sign the form at **Part 9**.

Benefit you can get because of this claim can be paid more quickly if you answer all the questions on this form that apply to you and your partner, if you have one.

We use *partner* to mean:

- a person you are married to or a person you live with as if you are married to them, or
- a civil partner or a person you live with as if you are civil partners.

If you cannot do this, get in touch with us, but benefit you can get because of this claim may be delayed.

If you are making a claim for prescribed disease:

- **A10 – occupational deafness**, also complete the attached form **BI100 OD**.
- **D4 – allergic rhinitis**, or **D7 – occupational asthma**, also complete the attached form **BI100 OAE**.

Send these forms back to us straight away. If you delay, you could lose money.

## What happens after we get your claim for benefit

We will write to you and tell you that we have got your claim.

A decision maker will look at your claim. *Decision makers* are people who decide if the law says you are entitled to benefit or not. They also decide how much benefit the law says you are entitled to.

To help the decision maker decide on your claim, we may need to get more information. We may need to ask people about your claim. For example, we may write to any employer, doctor or hospital that you have told us about in the claim form.

If the decision maker decides that you have worked in a job which is likely to have caused your disease, we may ask you to go to a medical examination. We will write and tell you where and when to go for the examination. If you are not fit to travel or you are in hospital, we will ask the doctor to come to you.

Please tell us any date and times that you may not be able to go to a medical examination in the next 6 months. For example, holidays and hospital appointments.

If you can get Industrial Injuries Disablement Benefit, we will write and tell you:

- how much money you can get
- more about the benefit.

If you cannot get Industrial Injuries Disablement Benefit, we will write and tell you the reason and what to do if you disagree.

## **Other money you may be able to get**

### **Reduced Earnings Allowance (REA)**

If you cannot do your usual job or other work with similar pay because of a disease caused by work and your illness or disability started before 1 October 1990, you may be able to claim Reduced Earnings Allowance.

### **Constant Attendance Allowance (CAA)**

If you get Industrial Injuries Disablement Benefit at the 100% rate and need daily care and attention, you may be able to get Constant Attendance Allowance. CAA is paid at four different rates. You will be considered for CAA automatically. You do not need to make a separate claim.

### **Exceptionally Severe Disablement Allowance (ESDA)**

If you get one of the two higher rates of CAA and you need permanent and constant care and attention, you may also get Exceptionally Severe Disablement Allowance.

### **Analogous Industrial Injuries Scheme (AIIS)**

If you are a trainee and you have an accident or get a disease during a work-based training programme you cannot get Industrial Injuries Disablement Benefit. But you may be able to get help under the Analogous Industrial Injuries Scheme. For more information contact:

- diffuse mesothelioma

### We normally pay your money into an account.

Many banks and building societies will let you collect your money at the post office.

We will tell you when we will make the first payment and how much it will be for. We will tell you if the amount we pay into the account is going to change.

### Finding out how much we have paid into the account

You can check your payments on account statements. The statements may show your National Insurance (NI) number next to any payments we have made. If you think a payment is wrong, get in touch with the office that pays you straight away.

### If we pay you too much money

We have the right to take back any money we pay that you are not entitled to. This may be because of the way the system works for payments into an account.

For example, you may give us some information, which means you are entitled to less money. Sometimes we may not be able to change the amount we have already paid you. This means we will have paid you money that you are not entitled to.

**We will contact you before we take back any money.**

---

### What to do now

- Tell us about the account you want to use on the next page. By giving us your account details you:
