

Opportunities to Tender : Merged Programme based on Progress2Work and Progress2WorkLinkUP and 2010 Problem Drug Users Employment Support Pilots

PQQ Events Update

At the recent PQQ events for this competition a number of delegates said that it would be useful to have 'something more/something else' that would help them develop their understanding and ability to move forward as potential sub contractors. We are happy to consider how best we can support this and alongside this note we have published a list of organisations that expressed an interest in attending one of the three events.

Additionally we are happy to consider thoughts on what else we might do. If we are to facilitate additional support for example a one off event or perhaps something web based we need to be clear that we make best use of your time, add value to the competition process and make best use of public money – with that in mind would you please let us have thoughts and ideas by close on Monday 2 November and respond via email:
